Multifunction Color Document Systems

With best-in-class features and the versatility of high-quality, on-demand color, the Sharp MX-6201N/MX-7001N Document Systems deliver all the muscle you need to keep up with the pace of business. Powerful multifunction features like copy, print, scan and document filing deliver versatile functionality for busy workgroups, while the flexibility of brilliant, on-demand color adds impact to your communications without breaking the bank. And with support for Sharp OSA® technology, Sharp's innovative development platform, you can boost productivity with one-touch access to your business applications...right from the LCD display. Add Sharp's sophisticated security options, and the MX-6201N/MX-7001N Document Systems help deliver secure walk-up, scan and network access—so your documents remain protected.

- High quality color output up to 50-ppm and crisp B/W output up to 62/70-ppm
- Performance-driven 1 GHz Multi-tasking Color Document System with optional EFI™ Fiery® controller to manage your unique environment
- Versatile application integration with Sharp OSA technology enables users to access network applications right from the LCD panel
- Sharp's award-winning multi-level and network security options
- Customizable, icon-driven color touch-screen display
- One-touch ImageSEND™ technology facilitates scans to USB devices, network folders, e-mail and more
- Standard 150-sheet Duplexing Document Feeder with Color Scan²™ technology
- Large 6,600-sheet maximum on-board paper supply (3,100 standard)
- Efficient Cardshot, Page Stamp and Tandem Copy
- Built-in PCL®6/PCL5c printing with Direct Print and PostScript® 3™ option

Versatile paper handling

At an impressive 62/70-ppm in B&W and a speedy 50-ppm Color, the new MX-6201N/7001N Series delivers high-quality lightning-fast output, perfect for busy workgroups. Sharp's new **multi-tasking controller** is at the heart of it all. With more speed and processing power, you can complete tasks simultaneously for improved efficiency. With a **standard paper capacity of 3,100 sheets** (upgradable to 6,600 sheets) and a standard **150-sheet duplex single pass document feeder**, these advanced performers can manage large-scale projects with ease...so your workflow virtually never slows down. For even more power and versatility, you can add the **3,000 or 3,500-sheet large capacity tray**, available in either tabloid or letter-only models. Additional paper-handling features including **trayless duplexing, electronic sorting and integrated offset stacking** make it easy to produce more booklets, proposals and presentations...without relying on external sources. The result? More control over your workflow, and more peace of mind.

High-efficiency scanning with Color Scan²

To maximize productivity, the MX-6201N/7001N Series offers Sharp's award-winning **color Scan² technology**. Now you can blaze through duplexed originals...whether they are B&W or Color, with simultaneous 2-sided scanning. And since the document is scanned in a single pass, it takes only half the time to process! Simply load your document into the tray,

press a few buttons, and walk away. **Scan² technology** makes it faster and easier to duplicate virtually any type of multi-page document. Produce employee booklets, company newsletters—almost anything your business needs to communicate—quickly and easily.

External keyboard option for enhanced interaction

If your workgroup performs a significant amount of data entry at the LCD, you can easily add the **optional external keyboard** for more convenience. Ideal for environments that handle repetitive scanning and archiving of documents, a keyboard significantly speeds up the process and saves time.

Easy access to shared files

With convenient **Document Filing**, you can standardize, share and store frequently-used files such as fax cover sheets, distribution order forms, HR forms, and more...right on the MFP. A **40 GB hard drive partition** provides plenty of storage capacity, so everyone can access the same files. In environments where security is required, you can easily restrict access to select users. With private storage features, PIN-code access, and **My Folders**, you can rest assured that your document security is never compromised. Sharp's new **Quick Folders** feature enables you to temporarily store and retrieve documents quickly and easily. Plus, an integrated backup utility automatically backs up your data.
